MOOSE HUNT
Zones 4, 8, 13 & 14

A once in a lifetime experience, Maine Moose Hunting is by permit only. The drawing takes place in late June. We truly enjoy the Maine Moose Hunt! This can be an exciting time watching moose coming into calls. The Moose hunt has become challenging throughout the years which makes this much more of a fun hunt.

All of our hunts besides the moose hunt are 5 day hunts, arriving after 2:00 on Sunday and leaving at 10AM Saturday.

DEER HUNTS

Fully Guided: This hunt consists of a maximum of 6 hunters to 1 guide, who actually hunts with you every day. In our area of Maine, we hunt in many diverse types of cover. The scenery is every bit as spectacular as the trophy bucks we pursue. Every year dozens of 200 pound bucks are taken in these areas. If conditions dictate, our knowledge of Maine may allow us to hunt other areas of the state, if that is what it takes to put the odds in your favor. Hunt includes meals, lodging and transportation.

Semi Guided: This hunt package provides you with the same food, lodging and amenities, except that you are on your own to hunt your buck. We will however direct you to some likely areas, and give you all the advice we can.

Unguided: Hunt on your own and choose from just lodging or lodging with meals.

Muzzle loading: This hunt takes place in the two weeks following Thanksgiving. At this time of year, if tracking is what you like then this hunt is for you, as we will go to where the snow is. This hunt is fun and can be very successful, one on one or as a group.

TROPHY BEAR HUNTS

BEAR WITH HOUNDS: This is a fast paced hunt which entails using proven bear hounds of various breeds to “run” a bear. We do this by “rigging” with strike dogs. Once the hounds scent a bear, they are released to pursue the bear. Each dog is supplied with a radio collar which emits a unique signal, allowing us to monitor the direction and activity of the dogs. We work at heading the bear off, positioning ourselves as close as possible to the chase. While the dogs keep the bear treed, we drive as close as possible then walk to the tree. We then get you positioned for the best possible shot. Rifles, shotguns with slugs, and bows are all acceptable for this type of hunt.

FALL BEAR OVER BAIT: In these hunts you hunt from stands placed over bait. We bait a minimum of two active sites per hunter. Each stand is positioned with regard to your weapon of choice, as well as the side from which you prefer to shoot. In most cases you will be hunting from a ladder stand. Each stand is erected to provide comfortable, sturdy, and safe position from which to hunt. Many of the bait sites are suitable for ground blinds if preferred. This hunt starts in the afternoon where you will be dropped off at your stand.

REMOTE TENT SITE: This is a do it yourself hunt in our Canvas tent. Everything but food is supplied, some of which includes cooking supplies, paper products, cots with padding drinking water, wood heat, lantern etc. You bait and take yourself to your site. A perfect way to enjoy a true Wilderness Maine bear hunt.
